**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 10 is rejected under 35 U.S.C. 102(b) as being anticipated by Pierpont (4,984,702). Pierpont discloses, in figs. 1-3, a fastener member for fastening a dispenser member on a fluid reservoir, comprising: a fastener ring 28 comprising a retention housing 60 comprising two opposite, vertical, longitudinal walls; and a covering hoop 24 comprising a hook 56 that is inserted between the two opposite, vertical, longitudinal walls of the retention housing, the hook comprising a downwardly extending body section 54 providing a spring force to hook 56 digging into one of the vertical, longitudinal walls of the retention housing that prevents the hoop from rotating around the ring and at least one barb profile, where the hook 56 is canted slightly upward in its brief inward length configured to bite into the retention housing that prevents the hoop from moving in axial translation and from becoming axially disengaged from the ring; and wherein the covering hoop is configured to be mounted by axial engagement around the ring so as to mask the ring at least in part.

***Allowable Subject Matter***

3. Claims 1-5 and 7-9 are allowed.

***Response to Arguments***

4. Applicant's arguments filed on 4/4/08 in regard to claim 10 have been fully considered but they are not persuasive as pointed out in the rejection above.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the flange does not bite both of the opposite walls of the retention housing) are not recited in the rejected claim 10. Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
